Dear Bobcat Families, this is Mike McFalls your superintendent. I regret to inform you that we are going to have to extend remote learning to the elementary and extend the middle school and high school to the end of Thanksgiving Break. The details are as follows: a significant number of staff have been in contact with a positive Covid-19 case. We are required to follow state and county health department guidelines requiring these individuals to quarantine for 14 days. This includes the front office staff, administration, support staff and two elementary classrooms. These individuals have not tested positive but guidelines require them to quarantine. All individuals that are required to quarantine will have been contacted by phone and informed of this. Because it is a significant number of staff we are unable to operate school in a safe manner forcing us to move elementary to remote learning. Because of the number of staff involved we will also be extending the high school and middle school remote learning along with elementary to the end of the Thanksgiving Break. The middle school and high school quarantine will end as scheduled. All other elementary students are only on remote learning; they are not quarantined. Additional information will be sent to you to keep you fully informed. I deeply regret that we are required to go to full remote learning but the safety of students and staff are paramount. Please reach out to your teacher if you’re having difficulties with remote learning.
