 - 27 4th/5th Grade Swim Lessons, 1:00-2:15 and 2:30-3:45, Club America

A REMINDER:

We do not have supervision for students until 7:40 each morning. Please do not drop off your children prior to that time.

Calling All Talented Students!

Get ready to show off your talent at the talent show. Registration forms are available in the office and are due on Wed. April 6!

YOU ARE INVITED!!

Our School Board has moved their monthly meetings to 6:00pm in our school Library. We hope you can join us!

Prior to the meeting this month (at 5pm) parents and interested community members are invited to come take a look at a new Elementary Math Series potentially up for recommendation to the Board.

From the Principal:

April and May are such busy months. I would encourage you to keep a close eye on the calendar and hope you will join us for the many activities taking place.

Come Volunteer! I would also like to welcome and encourage parents to come spend time with your child at lunch and recess. We are noticing an increase in playground behavior incidents and would love to have volunteers on the playground. Just the presences of additional adults playing and socializing with our students is a great deterrent to misbehavior and bullying (and – they LOVE to see you here!). Please feel free to stop by anytime; please sign in at the office. Or, feel free to give me a call and we can organize a time when you can come help volunteer on the playground!

Our Student Leaders!

It has been such a pleasure to watch our students grow as leaders this year. As we finish the year, we will be continuing to offer leadership opportunities for our students. One of the skills our students are learning and practicing is to ***Synergize!*** Synergy is all about understanding the value of teamwork. When we synergize we actively seek out others' ideas and we value their thoughts. Creativity increases because together we can learn, grow, and play. At school we give students many opportunities to work together. Students team up to edit their writing, participate in math games, complete a Science experiment, or talk about a book they are reading. As you think about the summer ahead for your children I would encourage you to look for opportunities for them to practice synergy. Team activities, sports, the library program, family activities – are all great opportunities for your children to practice this life-long skill in a fun way.

Holly Anderson

Congratulations to ALL our March PAWs'itive Bobcats!
