

CCCSD GOOGLE APPS PERMISSION FORM

Dear Parents/Guardians,

Custer County Consolidated School District (CCCSD) utilizes Google Apps for Education for students and staff. This permission form will offer you the chance to provide your consent for your child to utilize the Google Apps services (including Chromebooks) as well as explain the Google services that CCCSD uses to support student learning.

CCCSD actively monitors all student activity within our Google domain, and we ensure that our use of Google complies with both the Children's Online Privacy Protection Act (COPPA) and Family Educational Rights and Privacy Act (FERPA). There is no presence of advertising with CCCSD Google Apps Domain, and no personal student information is collected for commercial purposes.

PRIMARY GOOGLE SERVICES:

An individual Google account for students in grades K through 12 for school use managed by CCCSD. Settings are set for each school - elementary, middle school, and high school.

Chromebooks - a laptop like device that requires a school domain account to log on and utilize web services including Google Apps, testing applications, education sites and applications.

Docs - a word processing, spreadsheet, drawing, and presentation toolset that is very similar to Microsoft Office which allows students to collaborate with other students and teachers.

Classroom - a blended learning platform that aims to simplify creating, distributing and organizing assignments in a paperless way that supports collaboration that can extend beyond class time.

Mail -All student email is restricted to send and receive email only from users within CCCSD, and all incoming and outgoing student email is actively monitored by the email monitoring service Securly.

Calendar - an individual calendar providing the ability to organize schedules, daily activities, and assignments.

Using these tools, students collaboratively create, edit, and share files for school related assignments, projects and communicate via email with other students and teachers. These services are entirely online and available 24/7 from any Internet-connected computer. Examples of student use include showcasing class projects, building an electronic portfolio of school learning experiences, and working in small groups on presentations to share with others.

All student use of Google Apps for Education must follow the district's established Responsible Use Policy, which is available on our website at www.custercountyschools.org

Please use the opposite side of this sheet to provide your consent or deny access for your child's use of CCCSD Google Apps for Education and Chromebooks.
